

Shristi Rimal

Applying for: Front-End Developer Intern

☎ (+977) 9842007699 | ✉ shristirimal17@gmail.com | 📁 shristirimal17 | 🌐 shristirimal.com.np

Summary

Computer Engineering graduate focused on front-end development, with hands-on experience building responsive interfaces using HTML, CSS, JavaScript, and React. Academic projects span vanilla JavaScript sites through to a full-stack Next.js and TypeScript application. A working knowledge of Figma and design fundamentals helps me translate mockups into clean, maintainable components. Seeking a front-end internship to work on production codebases alongside experienced developers.

Education

Pokhara University	Pokhara, Nepal
B.E. in Computer Engineering	CGPA: 3.30 / 4.0

Skills

Front-End Development: HTML, CSS, JavaScript (Basic), React JS (Basic), Responsive Web Design (Basic)
Tools: Git & GitHub (Basic), VS Code, Blender (Basic), Google Workspace
UI/UX & Design: Figma (Basic), Basic wireframing, Basic prototyping, Basic user flows, Design thinking (Basic)
Soft Skills: Communication, Team Collaboration, Creativity, Problem Solving, Adaptability, Time Management, Willingness to Learn

Projects

GoalGrid — Goal and Task Management App	Next.js, TypeScript, Tailwind CSS, PostgreSQL, Drizzle ORM
- Built a full-stack web application for managing goals, tasks, reminders, notes, and bucket-list items - Implemented the interface as reusable React components in Next.js with TypeScript, styled with Tailwind CSS - Modelled and queried relational data in PostgreSQL through Drizzle ORM - Designed the navigation and routing structure so users can move between goals, tasks, and progress views without friction	
Fabrica — Fabric and Virtual Try-On Platform	React, JavaScript, HTML, CSS
- Contributed front-end features to a web platform for fabric browsing and digital shopping - Built interactive components for fabric presentation, virtual try-on, customer interaction, and recommendations - Translated user requirements into working web features in collaboration with the project team	
EcoMart — Bamboo Products E-Commerce Website	HTML, CSS, JavaScript
- Developed a responsive e-commerce site from scratch without a framework - Built product listings, navigation, and interactive elements using vanilla JavaScript and DOM manipulation - Structured layouts and stylesheets so the site adapts cleanly across screen sizes	

Workshops, Courses and Training

Web Development, Front-End and React JS Workshops — CSITWebsite structure, styling, interactivity, and component-based development Association of Nepal (CSITAN)	
XDezo — Online course in front-end web development	HTML, CSS, JavaScript
Introduction to Git & GitHub — Rotaract Club of Pokhara	2024
WordCamp 2025 — Participant	WordPress, web technologies, and industry practices
Graphic Designing Workshop — Rotaract Club of Pokhara University	Visual design principles and digital communication

Leadership and Involvement

Executive Member, IT Team	Rotaract	Rota Year 2024/2025
- Contributed to technology-related activities, digital initiatives, and organizational events - Collaborated with team members in planning and supporting technical activities		
Executive Member	STEM Sisters, Pokhara University	2024 - Present
- Contribute to STEM-related activities, collaborative initiatives, and technology-focused programs - Support activities that encourage students to explore STEM and technology		

Interests

Front-End Development, Web Performance and Responsive Design, React and the JavaScript Ecosystem, UI Engineering, Product Design, Learning New Frameworks and Tools
